Attachments: DEQ-FS_Workplan_Dispute_Ltr.pdf

Thanks very much Matt. I also wanted to make you aware, in talking to Rob Webb, Doug L, Mike Pinto here at Battelle they wants to have a site meeting on 3/7 with a small group regarding the possible transload. I asked about inviting DEQ and evidently LSS wanted to keep it small as potential contractors will be there that we have to be careful not to scare off, but Hunter and I would like to give you a download right after if that works?

We're going to try to set up the next negotiation session for next week or week after as well which we'll invite you and Sarah to as well I expect.

S

Subject: Arkema - DEQ/LSS FS Workplan Dispute

Passing this along to keep you somewhat in the loop. After two insufficient FS work plans, DEQ took it over and reworked it. LSS disputed DEQ modifications. Same issues out of the in-water playbook. Data, is too old, reworking risk assessments in FS, etc.

Attached letter completes the informal dispute resolution process. The next step is elevation to our region administrator. Let me know if you any questions.
